

CALIPSO

Innovative propulsion solutions for land and naval defence applications

SELECTED PROJECTS EUROPEAN DEFENCE FUND (EDF) 2023

CALL TITLE:

Research actions on energy resilience and environment transition

TOPIC TITLE:

Innovative propulsion systems (spin-in)

DURATION OF THE PROJECT:

36 months

TYPE(S) OF ACTIVITIES:

Integrating knowledge, Studies, Design

ESTIMATED TOTAL COST:

€ 24,950,169.27

MAXIMUM EU CONTRIBUTION :

€ 24,950,169.27

SHORT DESCRIPTION OF THE PROJECT:

CALIPSO aims to provide guidelines and roadmaps for systematically addressing technological and other challenges in terms of innovative emission-reducing propulsion solutions.

The project aims to enable the defence sector to systematically achieve the EU sustainability goals by introducing innovative emission-reducing propulsion solutions to a significant part of its activities. The project paves the way towards efficient adoption of sustainable fuel based innovative propulsion systems in the land and naval domains of the defence sector. The project provides guidelines and roadmaps for systematically addressing technical and other challenges such as standardisation, safety, supply chain and logistic.
